DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-22, drawn to group 1, classified in class 340, subclass 933.
- II. Claims 23-36, drawn to group 2, classified in class 705, subclass 28.
- III. Claims 27-33, drawn to group 3, classified in class 707, subclass 2.

The inventions are distinct, each from the other because of the following reasons:

Inventions 1,2 and 3 are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus is not needed for the process and further, the apparatus can be used for a different process.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group 1 is not required for Group 2 or 3, restriction for examination purposes as indicated is proper.

Application/Control Number: 09/693,733

Art Unit: 3629
